

CNO Governance Report including Trust Risk Register

13 May 2019

Three wavy lines in blue, green, and pink/magenta colors that sweep across the bottom of the page.

Agenda Item No: 11.2

Trust Board Report

Meeting Date:	13 th May 19
Title:	CNO Governance Report
Executive Summary:	Headlines contained in this report: <ol style="list-style-type: none"> 1. Trust Risk register progress update 2. Red incidents – Non SUI – nil to report 3. Serious Untoward incident (SUI) Performance 4. Information Governance work plan and risk 5. Governance staffing 6. Local Procedures Governance (inc Clinical Guidelines, Protocols etc) 7. Mortality returns 8. Learning and improvement 9. SUI Themes
Action Requested:	Receive and note,
For the attention of the Board	
Assure	<ul style="list-style-type: none"> Sustained progress with SUI management – one breach to 60 day target in March 19 has been submitted. TRR updates requested monthly are improving TRR risks are reviewed by operational Divisions, subject leads, Specialist groups and QGAC.
Advise	<ul style="list-style-type: none"> As part of preparation and compliance to CQC Well Led requirements, work is ongoing to assess a compliance position and action plan. This includes establishing governance arrangements for local procedural documents, revisiting a communication plan for Trust Vision, Values and Objectives and Trust strategy alignment.
Alert	<ul style="list-style-type: none"> The final IG toolkit submission was completed 31st Mar 19. The Trust has submitted at standards not met (improvement plan) and all practices have submitted at ‘Standards Met’.
Author + Contact Details:	Tel 01902 698121 Email maria.arthur@nhs.net
Links to Trust Strategic Objectives	<ol style="list-style-type: none"> 1. Create a culture of compassion, safety and quality 2. Proactively seek opportunities to develop our services 3. To have an effective and well integrated local health and care system that operates efficiently 4. Attract, retain and develop our staff, and improve employee engagement 5. Maintain financial health – Appropriate investment to patient services 6. Be in the top 25% of all key performance indicators
Resource Implications:	None
Report Data Caveats	This is a standard report using the previous month’s data and updates within a live Datix system. It may therefore be subject to cleansing and revision.
CQC Domains	<p>Safe: patients, staff and the public are protected from abuse and avoidable harm.</p> <p>Effective: care, treatment and support achieves good outcomes, helping people maintain quality of life and is based on the best available evidence.</p> <p>Caring: staff involve and treat everyone with compassion, kindness, dignity and respect.</p> <p>Responsive: services are organised so that they meet people’s needs.</p> <p>Well-led: the leadership, management and governance of the organisation make sure it's providing high-quality care that's based around individual needs, that it encourages learning and innovation, and that it promotes an open and fair culture.</p>

Equality and Diversity Impact	No adverse impact on PPCs
Risks:	See detail below
Public or Private:	
Other formal bodies involved:	
References	
NHS Constitution:	In determining this matter, the Board should have regard to the Core principles contained in the Constitution of: <ul style="list-style-type: none"> • Equality of treatment and access to services • High standards of excellence and professionalism • Service user preferences • Cross community working • Best Value • Accountability through local influence and scrutiny

Report Details

1. Trust Risk Register

Trust Risk Register Key Issues

2 new risks:

5173 - IT infrastructure in Audiology clinics (COO)

4523 - Failing Heater Cooler Units (COO)

5 risks removed:

5116 - Provision of 24/7 Critical care Outreach Services (COO)

4565 - Delivery of Agency Expenditure (COO)

2952 - Patient developing a pressure ulcer due to inadequacies of pressure ulcer prevention equipment in the Community (CNO)

4794 - The 2016/17 year end invoice (CFO)

5190 - ePMA downtime / outage issues (MD) * To be updated and remove in Appendix 1 TRR at next review.

7 red risks:

2080 - Risk to quality of patient care: reduced manpower (COO)

4661 - Lack of robust system for review and communication of test results (MD)

4472 - Delays in Cubicle Assessment and Triage (COO).

4113 - Divisions failure to achieve CIP target (COO)

5088 - Fragility of Neighbouring Trusts service (COO)

5182 - Lack of Network support for Vascular Services at RWT (MD)

There are currently 34 risks contained within the Trust Register which are distributed across the Trust's (5x5) categorisation matrix as below:

Likelihood	Consequence				
	1 Low	2	3	4	5 High
5 – Almost Certain					
4 – Likely			12 risks	5 risks	2 risks
3 – Possible			3 risks	12 risks	
2 – Unlikely					
1 – Rare					

The full TRR is shown in appendix 1 and tracked changes to risks in Appendix 2.

A majority of risks have received updates in April 19, attention is required to the following (in addition to update received):

2719 COO – grade under threshold – confirm decision to remain on TRR

3644 CNO – grade under threshold – decision confirmed to retain on TRR for monitoring

4375 COO – dates needed for actions

4382 COO – date needed for action

4411 COO - dates needed for actions

5045 MD – dates needed for actions (or transfer to controls if completed/underway)

5190 COO – dates needed for actions

4955 – CFO – grade under threshold (confirm decision to remain on TRR), update required

2. Red Incidents – Non SUI

Non to report this month, all incidents reviewed and reported/downgraded as appropriate.

3. Serious Untoward incident (SUI) Performance

Good performance on completion of SUI investigations to timescale. Monitoring continues at QSIG and weekly Executive review meetings.

Month	Ongoing /Open incidents (stop clock)	New Reported to STEIS	Closure Request to Commissioning	Closure Agreed by Commissioning	Over 60 day breaches - running total	Potential breaches in month
June 18	71 (6)	31	14	5	5	1
July 18	55 (6)	15	15	10	9	4
Aug 18	42 (4)	8	13	25	13	6
Sept 18	30 (3)	5	11	12	6	2
Oct 18	21 (2)	7	13	13	7	5
Nov 18	19 (2)	10	11	12	1	1
Dec 18	22 (1)	12	7	7	1	1
Jan 19	22 (2)	9	7	8	0	0
Feb 19	20 (2)	4	6	7	1	0
Mar 19	15 (1)	4	5	5	1	1
Analysis	Sustained progress made on the completion and closure of SUIs within timescale.	Reduction in SUI numbers impacted by agreement with commissioners to work to the National SUI reporting framework.	Fewer queries received from commissioners re RCA reports.	A good closure rate continues. Closure may relate to previous months.	Report not approved by Divisional Management, number of changes to be made to the report.	Progress helped by a weekly focus on RCA due dates.

4. Information Governance work plan

The focus for March was the DSPT toolkit submission and ensuring a robust submission for the Trust and the VI practices. The Trust has submitted at standards not met (improvement plan) and all practices have submitted at 'Standards Met'. The priority will be to ensure action plans for the Trust are implemented within the next 6 months.

April will see the start of privacy related training sessions delivered by the IG team that will assist in the organisations learning, supporting embedding principles of privacy into working practices.

Work to ensure Brexit plans consider data sharing and GDPR continues, and the DPO is working with the Trust Brexit task and finish group as a work priority. The Trusts DPO is also working closely with named directors to ensure privacy concerns are embedded in key projects that the Trust is embarking on which look at data sharing and new technologies.

5. Governance staffing

Interviews for the 2nd round of interviews for an Investigation and Learning Specialist take place 24th April. This role will support the RCA workload including investigation, learning and improvement. Successful recruitment in month to a Governance Officer role and a Team Leader role.

6. Local Procedures and Guidelines – Governance

Progress to date is below:

- Divisional/Directorate SOP for Development of Local Procedures ratified at Policy Group on 1/3/19 and by TMC on 22/3/19. A further AUB covering the new arrangements, SOP and version control template (attachments 5 & 11) issued 3/4/19. Governance is continually ensuring Directorates are aware of new practice requirements.
- All 3 clinical Divisions/Directorates have been issued with lists of local procedural documents to validate/update local documents in use. Returns have been received so far from Special Dental Care Services, Therapy Services, Diabetes, Oncology & Haematology, Sexual Health, Cardiology/Cardiothoracic, Renal, Adult Community and Rheumatology.

7. Mortality process

NB. Records of figures below are as at the 8th April and will change daily. SJR1 allocations for Mar 19 will be issued in after 11th April and are excluded from below.

SJR1 review process

For the period Sept 18 to February 19, 184 SJR1 reviews were allocated for review and 94 showing as outstanding to date (ie. 8/4/19). SJR1 reviews have routine monthly follow up with Mortality leads, via reports to QSIG and will be added to Directorate Integrated Governance Reports for redress.

For the period pre Sept 18, 11 SJR1 reviews are outstanding. In addition to the routine monthly follow up, MRG chair emailed follow up to the Medical leads assigned to complete these reviews.

SJR1 judgements of overall care for Feb 19 indicate adequate, good and excellent care.

Appendices

- Appendix 1 - Trust Risk Register (TRR)
- Appendix 2 – Tracked changes to risks

Appendix 2: Tracked changes within Trust Risk Register (April 2019)

Lead Director	Risk	Risk Title	Field updated	Update made
Chief Operating Officer	5173	IT infrastructure in Audiology clinics		
			New risk	If the information technology infrastructure is inadequate then patient appointments are frequently interrupted due to lack of necessary IT to support delivery of service, resulting in a poor patient experience as occasionally this necessitates patients being recalled to future appointments.
	4523	Failing Heater Cooler Units		
			New risk	Heater Cooler Units (HCU) used in cardiac surgery can harbour Mycobacterium chimaera (national and international incident). The upgraded cleaning protocol for the HCUs involves powerful bleach, which progressively damages the internal components of the machines. Surgery without an HCU would be very hazardous, so there is a need for at least one spare HCU on any operating day, in case of HCU failure during a case. Experience one year ago was that all HCUs being cleaned under the current protocol sustained similar damage and all failed over a short period. 3 of our 6 HCUs have failed recently, with only 1 being repairable. There is a risk of patient harm if multiple HCUs failed on any day, along with the risk of financial loss if list cancellations became necessary.
	4382	NX55 Main Theatres, Wards A12, A14, Admin, Plant Rooms) - Fire Safety		
			Positive Assurance – New	0 incidents relating to Reportable Fire's within Mar 2019
			Positive Assurance – New	0 Unwanted Fire Signals within Mar 2019
	4411	NX08/NX09 McHale Building - Fire Safety		
			Positive Assurance – New	0 incidents relating to Reportable Fire's within Mar 19

		Positive Assurance – New	0 Unwanted Fire Signals within Mar 19
4596	QS104 - Gallstone Disease		
		Positive Control – New	Additional all day list allocated from 5th March 2019
		Positive Control – New	SOP agreed including agreed consent criteria and booking form
		Gap in Assurance - New	Unable to appoint to the 4th UGI Consultant post
		Gap in Assurance - New	All day list introduced 5th March 2019. First 2 weeks only 1 patient per list (poor use of theatres)
		Action Plan - New	Rota to be devised to have 2 slots for HGB patients 2nd week in April (Monday & Tuesday)
		Action Plan - New	Re-locate UHNM staging lap list on Friday morning to give weekly 3rd session
		Action Plan - New	Recruit 4th UGI surgeon - closing date 19th March 2019; to enable full utilisation of allocated capacity. Currently being undertaken as additional to job plan
		Action Plan - New	Commissioning Intention for Bariatric Surgery joint appointment with 'local' centre to attract future candidate
		Action Plan - New	Purchase bile duct exploration kit
Action Plan - New	Procedure specific consent form		
4472	Delays in Cubicle Assessment and Triage		
		Positive Assurance – New	Majority of patients are being assessed within 2 hours
		Gap in Assurance - New	ACP's not included on the medical rota due to working hours issue
		Gap in Assurance - New	Medic left dept recently
		Action Plan - New	External agency to map rota against patient no's and develop workforce plan
4375	NX87 Heart Centre - Fire		

		Safety	Positive Assurance – New	0 incidents relating to Reportable Fire's within Mar 19
			Gap in Assurance - New	1 unwanted fire signal during Mar 2019 (Cooking on ward)
4161	Shortage of Qualified Nurses across the Division			
			Gap in Assurance - New	The main areas of concern are Cardiothoracic ward, A5 and A23
5116	Provision of 24/7 Critical care Outreach Services			
			Risk Level now managed on Directorate Risk Register	Risk downgraded to an operational risk as now risk score is 6 - being managed at target level.
2080	Risk to quality of patient care: reduced manpower			
			Positive Assurance – New	61.02 wte trained nursing vacancies remain, 17.73 roles offered, but not in post
			Positive Assurance – New	Attendance at RCN recruitment open day - resulting in 6 offers
			Gap in Assurance - New	3 wards will have 50% vacancies at Bd 5 level by the end of April 19
			Action Plan - New	Potential recruitment in South Africa - awaiting NMC decision
			Action Plan - New	Awaiting decision from COO re proposal to close 1 bay each on C16 and C25
4665	X-ray Cannock			
			Positive Control – New	Equipment replacement due to commence Q4 18-19
4565	Delivery of Agency Expenditure			
			Risk closed	Agreed at the Divisional Governance Meeting that this risk could be merged with risk 4529 as majority of controls/assurances and actions are the same. This risk agreed for closure. and new risk to reflect both vacancies and agency spend.
4696	Unreported Imaging Studies			
			Positive Assurance – New	Backlog has reduced from 7332 May 2017 to less than 3589 in Mar 2019

		Gap in Assurance – New	Approximately 3589 non-urgent imaging studies unreported Mar 2019 (inclusive of 653 CT scans and 1224 MRI scans). Over 20 days there are 912 in total (inclusive of 223 CT scans and 397 MRI scans)
4706	Infrastructure/environment in Nucleus Theatres		
		Positive Assurance – New	No incidents reported re. Sewage ingress / water leaks for over three months
		Positive Assurance – New	No procedure cancellations due to any of the above estates issues (between Apr 18 and Apr 2019)
5031	Potential Non Compliance with The Fetal Anomaly, Paediatric Hips, Downs Patau's, Edwards screening standards		
		Positive Assurance – New	2 WTE vacancy one of which has been recruited into, 1WTE will be advertised with support from radiology in order to make the post more attractive.
		Gap in Assurance – New	There remains a vacancy for a WTE sonographer
3069	Risk of Never Events within Division 1: Risks to Patient Safety and Trust reputation		
		Gap in Assurance – New	Monthly monitoring data of compliance with WHO checklist and Procedural Safety Checklist - 90% for full completion in Feb 2019
		Gap in Assurance - New	Monthly monitoring and compliance with WHO checklist use - There has been 80% compliance achieved during Feb 19
		Action Plan – New	Divisional Management Team to discuss AfPP report
4529	Vacancies in Medical Staffing/Agency and Locum staffing		
		Positive Control – New	Overseas recruitment continuing membership to Clinician's Connected
		Positive Control – New	Utilisation of the Fellowship-Programme
		Positive Control – New	Agency spend reviewed monthly at Directorate/Divisional meetings via the dashboard
		Positive Control –	Business cases being developed

			New	for overseas recruitment
			Positive Assurance – New	Medical staffing spend - increasing positive - filling posts
			Positive Assurance – New	Medical staffing divisional vacancy rate - 9 consultant improving 40 overall in Jan 7.87%
			Positive Assurance – New	Agency and Locum spend Aug 120k rotation commence steady throughout Sep - Dec increase in Jan to 350K largely due to Cardiology and Orthopaedics (Card 2 consultant vacancies and 1 CF) (Ortho - no consultant 3 junior posts)
			Positive Assurance – New	There has been no agency used in nursing for the last 16 months
			Positive Assurance – New	Achieved forecasted year end agency cap for April 18, new cap set for April 19
			Positive Assurance – New	Baseline meetings are still continuing on-going on a regular basis
			Positive Assurance – New	Project ongoing - recent engagement meeting at Sandwell individual agencies are supplying at reasonable rates why preferential rates at other Trust
			Positive Assurance – New	Ongoing T&O vacancy sent 20 CVs as were struggling to recruit looking at it also for the O&G Consultant
			Gap in Assurance – New	Still vacancies and locum expenditure increase
			Gap in Assurance - New	Still attending not achieving what it set out to, ease of transition- OH.training etc, finance work withdrawn more a forum for issues and concerns
			Action Plan – New	Focus on reducing agency spend in non-clinical areas initially
			Action Plan – New	Continue to implement recruitment strategy
			Action Plan - New	Annualised contracts - Card and Ophthalmology
Chief Nursing	3644	If the Trust fails to sustain		

Officer		improved compliance with CQC standards the rating of Good will could decline and progress will not be made towards Outstanding.	Positive Control – New	NEWS2 implemented Trust-wide
			Positive Assurance – New	Improved staff survey results
			Gap in Assurance - New	Outliers for Mortality HSMR and SHMI rates in National data sets
			Action Plan - New	Monitor action plan against KLOES
			Action Plan - New	Review Intranet to ensure current content
2952	Patient developing a pressure ulcer due to inadequacies of pressure ulcer prevention equipment			
		Risk closed	This risk was in relation to the service provision of ILS, the contract has now ceased with ILS and a new provider in place (Drive) from 1/4/19	
Medical Director	5045	Sepsis		
			Positive Control – New	Vital PACS upgrade with sepsis module have been implemented on 28th March. Captured data will measure compliance and improvement in identification and timely management of sepsis.
5190	ePMA downtime / outage issues			
		Risk downgraded to 8. Managed on local risk register	Updates to remove the anti-virus scanning on specific folders on the servers were suggested by EMIS. These changes were applied on 14/3/2019. No more system issues relating to this problem have been identified, the last reported locking issue was on 12/3/19.	
Chief Financial Officer	4794	The 2016/17 year end invoice		
			Risk closed	16/17 year end invoice is now closed

Chief Operating Officer	5031	If sub-optimal staffing (reduction in 39%) continues within the ultrasound scan department then it will impact on required compliance with national screening standards - this includes submitting required data and proving quality of work is assessed continually for obstetric patients. Neonatal Hip and cranial scans also need to comply with national standards and this may be affected. Training will also be impeded affecting the future of service provision. There may be a rise in litigation cases and disability. Delayed access to emergency gynae assessment unit / Fast Track clinics may lead to misdiagnosis of urgent care / life threatening conditions such as ectopic pregnancy and gynae cancers, and failure to meet national 2 week targets. There is potential for late discharges or treatments for obstetric, gynae and paediatric patients. Delayed access to ultrasound scans such as in August increases the risk of misdiagnosis of some high risk obstetric patients. Date of origin: 17/05/18 Date of escalation: 04/10/18 Risk Lead: Head of Midwifery	3 x 4 = 12 AMBER	1) Dating and Fetal Anomaly scans are given priority over Gynaecology scans to ensure women have their scan performed in accordance with the national programme standards. 9/4/19 2) Community Midwives have the facility to telephone the Maternity Unit and organise an urgent priority scan if a woman is thought to have booked late (9/4/19) 3) Midwife Sonographers in fetal medicine (FMU) are being asked to assist with scanning both obstetric and gynae scans in the main scan department when staffing in FMU allows (9/4/19) 4) Staff in maternity scan dept. are continually reviewing their staffing levels to escalate their concerns appropriately (9/4/19) 5) Agreement for Sonographers to volunteer to run weekend clinics and extended days to increase available scanning slots. (09/04/2019) 6) Current adhoc support from Midwife sonographers enables the sonographers to undertake hip, cranial and emergency gynae scans which have been prioritised. (9/04/2019)	1-4) There are no reported incidents whereby a woman has missed the opportunity to have her dating or anomaly scan as a direct result of sub standard staffing within main scan (9/4/19) 1-3) The Antenatal Screening Coordinator (Midwife) has not received any notifications from any community midwives to inform of a delay in scan (9/4/19) 1-15) Prioritisation of urgent patients e.g ectopics from ward and EPAU (9/4/2019) 1-15) Patients may be admitted to ward if unable to perform scan and confirm diagnosis (9/4/2019) 1-15) Currently, due to the prioritisation of work, sonographers are attempting to perform scans within standards stipulated for babies and mothers.(9/4/2019) 11) Staff have worked additional hours on the enhanced rate (9/4/19) 1-15) Currently all Obstetric patients still being offered screening and Anomaly scans within the time standard (9/4/19) 1-15) 2 WTE vacancy one of which has been recruited into, 1WTE will be advertised with support from radiology in order to make the post more attractive. (9/4/19)	1-4) Datix incident reports have been received concerning staff shortages resulting in no scan service in the EPAU - none received since 07.01.19 (9/04/19) 1-15) Scans are currently being done out of standard for babies and mothers, as seen by the DATIX incidents. Hip Scans are out standard currently and done at 7 weeks plus - 11 babies just over 6 weeks screening standard (9/4/2019) 11) There remains a vacancy for a WTE sonographer.. (9/4/19) 1-15) 9 Gynae Fast Track appointments still outstanding (9/4/19)	1) Increase staffing of sonographers in main scan 2) Resolve HR issues 3) Training for x2 Midwife sonographers 0.4WTE 3rd Trimester scans 1) Re-advertise for permanent sonographers	Jun-19 Jun-19 Jun-19 Jun-19	1 x 3 = 3 GREEN	Apr-19
