

The region is currently recruiting more participants to COVID-19 studies than any other, with three of our Trusts in the top ten - well done to them:

- UHB - 5th
- UHNM - 8th
- RWT - 10th

Network Clinical Director, Professor Jeremy Kirk says: ' In these extraordinary times it is both amazing and very heartening to see the hard-pressed NHS staff nationally, and especially in the West Midlands, coming together to recruit as many patients with COVID-19 as possible into these groundbreaking trials. Our collaborations are offering research opportunities to thousands of patients and we thank everyone who is taking part.'
