

Trust Board Report

Meeting Date:	25 th February 2013
Title:	Board Assurance Framework / Trust Risk Register
Executive Summary:	This paper reflects the spread across Board Assurance Framework and Trust Risk Register. This month these risks have been mapped against the Trust Strategic Objectives.
Action Requested:	To inform the Board of updates to the Board Assurance Framework (AF) and Trust Risk Register.
Report of:	Chief Nursing Officer
Author: Contact Details:	Governance IM&T Lead Tel: 01902 695114 Email:
Resource Implications:	None identified
Public or Private: (with reasons if private)	Public Session
References: (eg from/to other committees)	
Appendices/ References/ Background Reading	
NHS Constitution: (How it impacts on any decision-making)	<p>In determining this matter, the Board should have regard to the Core principles contained in the Constitution of:</p> <ul style="list-style-type: none"> ✚ Equality of treatment and access to services ✚ High standards of excellence and professionalism ✚ Service user preferences ✚ Cross community working ✚ Best Value ✚ Accountability through local influence and scrutiny

Background Details

The Board Assurance Framework “provides organisations with a simple but comprehensive method for the effective and focused management of the principal risks that arise in meeting their objectives. It also provides a structure for the evidence to support the Statement on Internal Control” (Integrated Governance Handbook 2006: A handbook for executives and non-executives in healthcare organisations. Department of Health p15.).

Board Assurance Framework – Updates (Appendix A)

Following updates the split of the Assurance Framework is:

Risks currently being managed (ongoing)	8
Risks managed to target level	2

There are currently 10 risks contained within the Assurance Framework which are distributed across the Trust categorisation matrix as below:

Likelihood	Consequence				
	1 Low	2	3	4	5 High
A – Almost Certain			1		
B – Likely			2	1	
C – Possible			1	3	
D – Unlikely		1	1		
E – Rare					

Utilising the Trust's categorisation matrix (risk plot above) as a way of pragmatically prioritising the Trust's risks, the following are considered to be of high risk to the Trust:

	ID	Risk Title	Lead
RED	2962	Health Visiting Services	COO

Trust Risk Register – Updates (Appendix B)

Following updates the split of the Trust Risk Register is:

Risks currently being managed (ongoing)	26
Risks managed to target level	1

There are currently 27 risks contained within the Trust Register which are distributed across the Trust's categorisation matrix as below:

Likelihood	Consequence				
	1 Low	2	3	4	5 High
A – Almost Certain			2	2	
B – Likely			8		
C – Possible		1	3	9	
D – Unlikely			1	1	
E – Rare					

Utilising the Trust's categorisation matrix (risk plot above) as a way of pragmatically prioritising the Trust's risks, the following are considered to be of high risk to the Trust:

	ID	Risk Title	Lead
RED	514	Failure to deliver recurrent efficiency gains and CIPs.	FD
	3176	Commissioners raising issue of patient activity over performance and their ability to pay.	FD

The following illustrates how risks on the BAF and TRR are mapped against the strategic objectives:

Strategic Objective	BAF				TRR			
	R	A	Y	G	R	A	Y	G
1) To provide our patients & staff with a safe environment.		2	1			7		
2) To be the employer of choice.						2		
3) To achieve a balance between demand & capacity of services	1					3		
4) To progressively improve the image and perception of the Trust						1		
5) To be in the national NHS top quartile of benchmarks							1	
6) Deliver services within financial allocations		3			2	5	1	
7) To be a high quality educator		1				1		
8) To agree appropriate population catchment areas for RWHT service				1				
9) To develop our position as a tertiary centre								
10) To achieve Foundation Trust status		1				2		
Clinical Negligence Scheme for Trusts						2		

Recommendation(s)

- Trust Board considers the report and any changes with the Board Assurance Framework and Trust Risk Register.

Appendix A: Tracking changes within Board Assurance Framework (February 2013)

Lead Director	Risk	Risk Title	Update	Reasoning / Progress Against Actions
Chief Nursing Officer	2965 C4	Failure to reduce Never Events	Downgraded to C4 Amber. Positive Assurances and Action Plan updated.	No Never Events for 92 days (Feb 13) Clarity over possible poor compliance in Obs and Gynae theatre now achieved and new processes in place to avoid ambiguity in reports (Feb 13) Ratify safety checklist policy Audit draft policy with external auditors.
	3277 B3	Failure to meet Catheter Safety CQUIN requirements	Gaps in Assurances and Action Plan updated.	System to alert database of new patients with catheters not rolled out. Roll out ICNet NG as database for all catheters following re-audit.
Chief Executive	3330 C4	The impact on the Trust of the changes occurring at Mid Staffordshire.	***NEW RISK***	The impact on the Trust of the changes occurring at Mid Staffordshire NHSFT and within the Staffordshire health economy.
Chief Operating Officer	2962 B4	Risk of Health Visiting business/system/service failure due to multiple systemic failings.	Positive Controls and Action Plan updated.	01/02/2013 - CPT Workforce now increased to 4.5 wte with further 0.8 wte in April. 01/02/2013 - Sickness absence for HV is 4.16% which is improving. 01/02/2013 - Smoking CQUIN - significant improvement in December's performance. 3 workshops chaired by SHA HV lead planned for January and February 2013.
Director of Planning and Contracts	2699 C4	Impact of movement to GP Consortia Commissioning	***Risk closed***	

Appendix B: Tracking changes within Trust Risk Register (February 2013).

Lead Director	Risk	Risk Title	Update	Reasoning / Progress Against Actions
Chief Operating Officer	1714 B3	Failure of other agencies to support discharge process.	Positive controls updated.	Daily discharge meeting to review and agree actions aimed at improving discharges and relations with social care. CHC assessment training commenced. Daily desktop review of all medical outliers.
	1716 B3	Failure to achieve targets in accordance with the operating framework (waiting times, CQC etc.)	Action Plan updated.	Review of outcomes framework and Monitor's draft risk assessment. Framework has been completed to ensure all future requirements are being met.
	2492 C4	Failure to ensure that inpatient, outpatient, day case and theatre capacity meets demand.	Gaps in Assurance updated.	Increased number of cancelled operations due to capacity - January 2013.
	2828 C4	Performance issues within T&O Directorate	***NEW RISK***	There are concerns in relation to the quality of care within the T&O Directorate. Investigation into complaints and incidents has raised concerns as to whether the care on the Orthopaedic wards are consistently at the highest standard, leading to risks of

				compromised patient care and increased levels of incidents and complaints, as well as poor staffing.
Chief Nursing Officer	535 C4	Failure to achieve reductions in HAIs impacting on Trust's reputation and compliance to regulatory standards.	Positive Assurances updated.	ICNet NG in place to provide electronic alerts. MRSA screening retraining rolled out
	1717 C2	Failure to maintain re-registration by the CQC periodic review.	Positive controls updated.	CQC action plan incorporating use of who checklist and modified checklist for use outside of theatres in place following unannounced visit and being monitored to closure via QSC and Trust Board
	2482 D4	Failure to learn from national / local organisations experience e.g. Francis report.	Positive controls and Action Plan updated.	Trust process for escalation of risks identified. The Trust has a process for review of external reports to apply local actions, learning or improvement. Set up scrutiny group to review final RCA reports (exception of pressure ulcers and serious falls where a group is already established). Gap analysis to be completed against Francis public inquiry report (Feb 13). Lead to be assigned.
	2680 A3	Interpreting & Translation Service - risk of over performance against central budget held by patient experience.	Positive controls, Positive Assurances and Action Plan updated.	Commenced action plan to implement same model as pilot across Trust. Reduction in overspend in month 10 by 20% (Feb 13). No complaints received about lack of face to face interpreting in 1st month of pilot (Feb 13). Develop action plan to implement across Trust to start.
	2917 C4	Risk of non-compliance with NHSLA standards - achieving 12/13 CIP	Gaps in Assurance and Action Plan updated.	Until assessment date decided, unable to establish whether or not 12 months evidence in place (Feb 13). On-going monitoring of Directorates against Divisional Governance Strategy (Level 2) - IGR, Scorecards and Divisional monitoring.
	2950 B3	Unable to achieve no avoidable pressure ulcers by December 2012 across the health economy.	Action Plan updated.	Challenge wards to achieve x number of days since last avoidable PU - on-going Purchase further dummy models to teach staff about grading.
	3278 B3	Management of Policies - version control, publication and archive	Positive controls and Gaps in Assurance updated.	Review Publication protocol (Jan 13). Disjointed system from final approval to recording and publication of policies (as at risk initiation Dec 12) Review policy archive audit results.
Director of Planning and Contracts	2929 D3	Failure to deliver CQUINS schemes.	Positive Assurances updated.	All Q3 data returned on time. Positive Assurances given by Commissioning at Q3 sign off.
Chief Financial Officer	1739 C4	Failure to develop Service Line Reporting across the Trust.	Downgraded to C4	SLR is now being issued on a monthly basis, forms part of the Directorate finance performance pack and is discussed on directorate meetings. The introduction of PLICS is aiding this progress.

Medical Director	2920 C4	Provision of Vascular Services	***Risk closed***	All actions completed.
