## Background Details

The Board Assurance Framework “provides organisations with a simple but comprehensive method for the effective and focused management of the principal risks that arise in meeting their objectives. It also provides a structure for the evidence to support the Statement on Internal Control” (Integrated Governance Handbook 2006: A handbook for executives and non-executives in healthcare organisations. Department of Health p15.).

Board Assurance Framework – Updates (Appendix A)

Following updates the split of the Assurance Framework is:

Risks currently being managed (ongoing)	10
Risks managed to target level	2

There are currently 12 risks contained within the Assurance Framework which are distributed across the Trust categorisation matrix as below:

Likelihood	Consequence				
	1 Low	2	3	4	5 High
A – Almost Certain			2	1	
B – Likely					
C – Possible		1	2	4	
D – Unlikely		1		1	
E – Rare					

Utilising the Trust’s categorisation matrix (risk plot above) as a way of pragmatically prioritising the Trust’s risks, the following are considered to be of high risk to the Trust:

	ID	Risk Title	Lead
RED	2765	Capacity Issues - Health Visiting Service (Bilston)	COO

Trust Risk Register – Updates (Appendix B)

Following updates the split of the Trust Risk Register is:

Risks currently being managed (ongoing)	21
Risks managed to target level	0

There are currently 21 risks contained within the Trust Register which are distributed across the Trust’s categorisation matrix as below:

Likelihood	Consequence				
	1 Low	2	3	4	5 High
A – Almost Certain			2	1	
B – Likely			8	2	
C – Possible				8	
D – Unlikely					
E – Rare					

Utilising the Trust's categorisation matrix (risk plot above) as a way of pragmatically prioritising the Trust's risks, the following are considered to be of high risk to the Trust:

	ID	Risk Title	Lead
RED	514	Failure to deliver recurrent efficiency gains and CIPs.	FD
	1739	Failure to develop Service Line Reporting	FD
	2720	Loss related to best practice tariff for haemodialysis	COO

**Recommendation(s)**

- Trust Board considers the report and any changes with the Board Assurance Framework and Trust Risk Register.
