

Trust Board

Meeting Date:
27th March 2017
Title:

Board Assurance Framework / Trust Risk Register

Executive Summary:
BAF Key Issues
0 new risks.
5 red risks:

SR1 - Workforce - Recruitment and Retention of staff across the Trust and in particular the future pipeline of nursing and medical staff

SR4 - Risk of adverse impact on the Trust following service transfer in November 2014 due to underlying financial gap of £6million

SR8 - That there is a failure to deliver recurrent CIP's.

SR9 - That the deficit plan for 2016 is not achieved and the medium term financial plan fails to bring the Trust back to surplus.

SR10 - That the Trust fails to generate sufficient cash to pay for its commitments.

Trust Risk Register Key Issues
1 new risk:

4599 - Emergency Services Governance Arrangements (COO)

2 risks removed:

2836 - Replacement of Lab 2 (COO) – Now managed on local risk register

4616 - Safeguarding Risk Due to a Backlog and Inadequate Filing of Antenatal Summary Tracer Cards (COO) – **Closed** outright

4 red risks:

4161 - Shortage of Qualified Nurses across the Division (COO)

2080 - Risk to quality of patient care: reduced manpower (COO)

4661 - Lack of robust system for review and communication of test results (MD)

4472 - Delays in Cubicle Assessment and Triage (COO).

Action Requested:	To inform the Committee of updates to the Board Assurance Framework (AF) and Trust Risk Register.
Report of:	Chief Nursing Officer
Author: Contact Details:	Governance IM&T Lead Tel: 01902 695114 Email:
Resource Implications:	None identified
Public or Private: (with reasons if private)	Public Session
References: (eg from/to other committees)	
Appendices/ References/ Background Reading	
NHS Constitution: (How it impacts on any decision-making)	In determining this matter, the Board should have regard to the Core principles contained in the Constitution of: <ul style="list-style-type: none"> ✚ Equality of treatment and access to services ✚ High standards of excellence and professionalism ✚ Service user preferences ✚ Cross community working ✚ Best Value ✚ Accountability through local influence and scrutiny

Background Details

The Board Assurance Framework “provides organisations with a simple but comprehensive method for the effective and focused management of the principal risks that arise in meeting their objectives. It also provides a structure for the evidence to support the Annual Governance Statement”.

Board Assurance Framework (Appendix A)

Following updates the split of the Assurance Framework is:

Risks currently being managed (on-going)	7
Risks managed to target level	0

There are currently 7 risks contained within the Assurance Framework which are distributed across the Trust (5x5) categorisation matrix as below:

Likelihood	Consequence				
	1 Low	2	3	4	5 High
5 – Almost Certain				4 risks	
4 – Likely				1 risk	
3 – Possible			1 risk	1 risk	
2 – Unlikely					
1 – Rare					

Utilising the Trust's categorisation matrix (risk plot above) as a way of pragmatically prioritising the Trust's risks, the following are considered to be of high risk to the Trust:

	ID	Risk Title	Lead
RED	SR1	Workforce - Recruitment and Retention of staff across the Trust and in particular the future pipeline of nursing and medical staff	HRD
	SR4	Risk of adverse impact on the Trust following service transfer in November 2014 due to underlying financial gap of £6million	CFO
	SR8	That there is a failure to deliver recurrent CIP's	COO
	SR9	That financial balance (and surplus) is not achieved.	CFO
	SR10	That the Trust fails to generate sufficient cash to pay for its commitments	CFO

Trust Risk Register – Updates (Appendix B)

Following updates the split of the Trust Risk Register is:

Risks currently being managed (on-going)	27
Risks managed to target level	1

There are currently 28 risks contained within the Trust Register which are distributed across the Trust's (5x5) categorisation matrix as below:

Likelihood	Consequence				
	1 Low	2	3	4	5 High
5 – Almost Certain			1 risk	1 risk	
4 – Likely			15 risks	2 risks	
3 – Possible			3 risks	4 risks	
2 – Unlikely					
1 – Rare			1 risk		1 risk

Utilising the Trust's categorisation matrix (risk plot above) as a way of pragmatically prioritising the Trust's risks, the following are considered to be of high risk to the Trust:

	ID	Risk Title	Lead
RED	4161	Risk to patient safety and quality of care reduced staffing levels across the Division	COO
	2080	Risk to quality of patient care: reduced manpower	COO
	4661	Lack of robust system for review and communication of test results	MD
	4472	Delays in Cubicle Assessment and Triage	COO

The following illustrates how risks on the TRR are mapped against the strategic objectives:

Strategic Objective	TRR			
	R	A	Y	G
1) Be in the top quartile for all performance indicators				
2) Proactively seek opportunities to develop our services				
3) To have an effective & well integrated organisation that operates efficiently		7		
4) Maintain financial health - appropriate investment enhancement to patient services		4		
5) Attract, retain & develop our staff & improve employee engagement	1	4		
6) Create a culture of compassion, safety & quality	3	7	1	1

Recommendation(s)

- The Board considers the report and any changes with the Board Assurance Framework and Trust Risk Register.

Appendix B: Tracking changes within Trust Risk Register (March 2017)

Lead Director	Risk	Risk Title	Field updated	Update made
Chief Nursing Officer	2680	Overspend on interpreting and translation budget could lead to inadequate funding and service to patients.		
			Gap in Assurance - Updated	Year 2016/17 budget is £163.626 (year to date variance £210,025) – Feb 2017
	3644	Failure to make an improvement in compliance gaps with CQC standards.		
			Positive control - New	Monitoring of metrics regards Quality / Performance issues monthly identifying trends and themes of non-compliance
			Positive Assurance - New	E-roster upgrade to version 10 live from 13/02/17
			Positive Assurance - New	Slight improvement in vacancy rates
			Positive Assurance - New	Biannual skill mix review - slight improvement in vacancy rates
			Positive Assurance - New	Action Plan now closed – outstanding actions addressed and monitored via monthly report to PSIG
			Gap in Assurance - New	Safer staffing fill rates remain transient particularly for nights
Gap in Assurance - New	Falls with serious harm continue to rise			
Chief Operating Officer	4599	Emergency Services Governance Arrangements		
			New risk	If there are staffing issues within the Emergency Dept, especially substantive shortages within the Medical team, along with increased numbers of patients attending, leading to significant pressure on the staff within ED. This will lead to an inability to engage fully with Governance processes.
	4523	Failing Heater Cooler Units		
			Positive control - New	Patients are informed before every case of the risk and it is documented on the consent form.
	4596	QS104 - Gallstone Disease		
			Action Plan - New	Ascertain the number of hot gallbladders undertaken by the Directorate per week
	4650	CICT Model change		
			Action Plan - New	ACS to establish weekly reporting process to monitor impact
	2080	Risk to quality of patient care: reduced manpower		
			Positive Assurance - New	15 staff from the Philippines have graduated and 9 more have arrived to complete OSCI and IELTS
Positive Assurance - New			Daily staffing template produced at 4pm detailing all registered staffing (Friday's template includes weekend plus Monday am.	

			Positive Assurance - New	Cohort 1, 2 & 3 of new staff now on wards.
			Positive Assurance - New	All B7s trustwide have been advised to fill OOH rota first, then manage any gaps in-hours including putting themselves in if necessary
			Action Plan - New	Producing job plans for all CNS posts for review.
			Action Plan - New	Empty ward 3 at WPH to be adapted to create an OSCI training room
	4540	Non-compliance with Mandatory Training		
			Gap in Assurance - New	Jan Mandatory training report has shown compliance for local induction as 69.7%
			Action Plan - New	On-going Divisional challenge of Directorate performance at the Directorates Quality Assurance Meetings
	2836	Replacement of Lab 2		
			Risk removed from TRR. Now managed on local Risk Register.	Downgraded to Yellow.
	2898	Patients having to wait in ED in the Ambulance off load area		
			Action Plan - New	CCG request for 'stop and review' process to be built in to action plan
	3069	Risk of Never Events within Division1: Risks to Patient Safety and Trust reputation		
			Gap in Assurance - New	5th NE in 16/17 reported to CCG - Theatres/T&O Cannock (wrong prosthesis) reported (Datix ID: 174038) occurred Mar 2017
			Action Plan - New	Undertake RCA investigation into 5th NE reported Mar 2017
	4616	Safeguarding Risk Due to a Backlog and Inadequate Filing of Antenatal Summary Tracer Cards		
			Risk closed	Work has now been completed. The backlog of Tracer Cards have now been filed.
	4472	Delays in Cubicle Assessment and Triage		
			Positive Assurance - New	2 new Consultants in place March 17 (1 Paed/ 1 ED)
			Positive Assurance - New	2 further consultants due to start April17 (equates to 1 ED post as shared with Paeds)
			Positive Assurance - New	Adult post re-advertised - 1 candidate for interview 11th April 17
			Action Plan - New	Continue with recruitment of medical staff
			Action Plan - New	Develop and implement Nurse led RAT
Chief Financial Officer	4583	Delivery of improvement trajectories		
			Positive Assurance - New	Forecast year end re-submitted and Q3 achieved.
			Gap in Assurance - New	Risk that Q4 may not achieved
	4584	Significant financial pressures in the		

		NHS	Positive Assurance - New	M11 position shows Trust on target to achieve CRL.
--	--	-----	------------------------------------	--

The Board Assurance Framework "provides organisations with a simple but comprehensive method for the effective and focused management of the principal risks that arise in meeting their objectives. This Assurance Framework assesses the most important risks that the Trust faces to date, and which have the highest potential for external impact. Such risks differ in magnitude and complexity to operational risks and often require comprehensive risk mitigation plans which spans over a longer timescale than most operational risks. The Trust defines strategic risk as a strategic control issue that could:

- Close down a service / services
- Seriously prejudice or threaten achievement of a principal objective
- Threaten the safety of service users.
- Threaten the reputation of the Trust/NHS.
- Lead to significant financial imbalance and/or the need to seek additional funding to enable resolve and/or result in significant diversion of resources from another aspect of the business.

Strategic (principle) risks will be reviewed as part of the annual business planning process and can also be identified in-year. They are managed as part of a complex process as opposed to discrete events. The Trust Board needs to be satisfied that strategic risks are being properly identified and managed robustly.

Risk score = consequence (i.e. impact) x likelihood - The matrix below is used to calculate a risk score, which will determine the category the risk falls within, that score informing follow up action, its urgency, and the required performance management to ensure the risk is managed effectively. For a fuller description/explanation of categories refer OP10 Policy.

Likelihood	Consequence				
	1 - Insignificant	2 - Minor	3 - Moderate	4 - Major	5 - Catastrophic
5 - Almost Certain	5	10	15	20	25
4 - Likely	4	8	12	16	20
3 - Possible	3	6	9	12	15
2 - Unlikely	2	4	6	8	10
1 - Rare	1	2	3	4	5
Likelihood score	1	2	3	4	5
Descriptor	Rare	Unlikely	Possible	Unlikely	Almost certain
Broad description of frequency	Not expected to occur (yearly/ years)	Not expected to occur, however could given the right circumstances (annually).	May occur occasionally (monthly)	Will probably occur, however not a persistent risk (weekly)	Likely to occur on many occasions; a persistent risk (daily)

The extent to which the origins of the risk currently impact on the strategic risk.

- The origin of the strategic (principle) risk is significantly impacting on the risk.
- The origin of the strategic (principle) risk is still impacting on the risk to a limited extent.
- The origin of the strategic (principle) risk is no longer impacting on the risk

Controls

The extent to which the controls in place are satisfactory in impacting mitigation of the strategic risk.

- Effective control partially in place and thus only impacting in a limited way on the mitigation of the strategic risk.
- Effective control in place but only partially impacting on the mitigation of the strategic risk
- Effective control in place and positively impacting on the mitigation of the strategic risk.

Movement

The direction from last reported quarter

- Indicates improvement from last reported quarter
- Indicates same level from last reported quarter
- Indicates slippage or further required work from last reported quarter
- New item added since last quarter

Potential/Actual origins impact level

SR 1 Date of origin - May 2015	Workforce - Recruitment and Retention of staff across the Trust and in particular the future pipeline of nursing and medical staff.	Director of Human Resources and Organisational Development	Finance and Performance			➔
POTENTIAL IMPACTS / CONSEQUENCES OF THE RISK			IMPACT ON CQC Domains (State Domain name)			
REF	What are the key potential consequences (up to 4) of the risk?			Indicate by X to those applicable		
PC 1	Potential over reliance on agency / locum resource which may lead to quality issues and may lead to the temporary medical workforce cost become unaffordable.	Effective				X
PC 2	Inability to deliver the future workforce plan with the potential that the Trust is unable to provide the level of service it is commissioned for and putting quality of patient experience and outcomes at risk.	Response				X
PC3	Ability to attract suitability qualified staff and retain them with the potential for costs involved in attracting and retaining staff becoming unaffordable.	Well Led				X
PC4	Potential for employee engagement indicators to decline (eg satisfaction, motivation) and for negative indicators (sickness, incidents greater than peer group upper quartile) which may lead to quality and cost issues.	Effective				X
REFERENCES TO KEY OPERATIONAL RISKS IMPACTING ON THIS STRATEGIC RISK				IMPACT LEVEL		Movement
Potential or actual origins that have led to the risk ...			What are the most significant origins (up to 10) which could or have led to the risk?			
REF	ORIGIN			RAG		
O1	Reduction in the number of Doctors in Training coming through the deanery. There are recruitment gaps for some specialities increasing reliance on temporary workforce and locum, the market is highly competitive.					
O2	Lower interest medical training as a career - number of nurses leaving profession, increasing levels of voluntary turnover for Band 5 nurses in particular. Number of doctors in training leaving the profession before FY2 has increased nationally.					
O3	There is a national shortage of trained nurses and medics in the UK. The cost of attracting and retaining EU and non-EU staff is significant and the length of time from interview to start date is 6 months on average and up to a year for non-EU staff.					
O4	Competition from other NHS Providers - who may have stronger credentials in either Research and Development, benefits or workforce initiatives. Reduced staffing and impact on patient care and impact on remaining staff morale and satisfaction.					

Key Assurances received					
Report ref	Controls	Positive assurance What is the report that provided assurance?	Date last assurance provided:	RAG	Comments
C1	Overseas recruitment initiatives for Nursing and Medical Staff: - 5 European cohorts recruited over the last two years close work with HEWM - at Jan 2017 EEA workforce is 2.5% of the whole Trust workforce, continued monitoring of retention rates. - International recruitment campaign to the Philippines (November '15 and January '16) - continued monitoring of conversion rates and agency contract. - For medical staff we mostly interview candidates via Skypem regularly engage recruitment/search and selection agencies to source UK and overseas doctors in addition to the standard recruitment routes within the UK. _ For medical staff the Trust has introduced a Clinical Fellowship programme to attract medics into the Trust.	1. Workforce Assurance Group - Resourcing and Medical Workforce Updates. 2. Executive HR Report to TMC and Trust Board. 3. Safer Staffing Updates in Chief Nurse Update report to TMC and Trust Board.	Monthly Report	Red	Length of time from interview to start date over 6 months. Currently only a small number of staff in post - discussion ongoing with NMC.
	Retention initiatives for Nursing and Medical Staff: - Approved Recruitment and Retention Strategy for Nursing 2016 - 2020 and governance process in place. - Work initiated through Medical Workforce Group to get a Recruitment and Retention Strategy for Medics and governance process in place. - The 2016 Chatback survey specifically asks whether staff see themselves working at the Trust in a year's time - follow up work initiated. - The findings of the National Staff Survey were followed up with further qualitative research to determine the impact on retention of staff satisfaction with worklife balance and on the workforce race equality standard reported outcomes.	1. Workforce Assurance Group - Resourcing and Medical Workforce Updates. 2. Nurse Steering Group reviews Nurse Recruitment and Retention Actions. 3. Medical Resourcing Group established to review Medical Recruitment and Retention Actions. 4. Executive HR report to TMC and Trust Board.	Monthly Report		
C2	Review of staffing establishment takes place through the annual workforce plan and this is reviewed regularly : - Nurse Recruitment team maintain a blueprint of nursing vacancies and placements. - Medical Recruitment maintain and report on medical staffing establishment and vacancy levels. - NHSI return of Workforce Plan submitted - scenario planning initiated supported by HEE. - Clinical Fellowship Programme established to assist with recruitment of posts at 'middle grade junior doctor level' and to provide a new career path for medical roles. - Trust Efficiency Programme has a workstream on workforce to plan efficiencies and controls for use of agency staff and sickness project group established to ensure staffing levels on wards are optimised - date for deployment for nursing resource secured - implementation February 2017. - E-rostering	1. Workforce Assurance Group - Resourcing and Medical Workforce Updates. 2. Executive HR Report to TMC and Trust Board. 3. Finance & Performance Committee 4. Update reports to Executive Directors through Director of HR and OD 5. Trust Efficiency Programme Update.	Monthly Report	Amber	
C3	Strengthen employer credentials through rebranding exercise - i.e. build up a Recruitment and Retention Strategy that clearly highlights the benefits of working in the organisation and that has a clear plan for bringing in future pipelines. Retention of staff was explored in Chatback 2016 to establish staff intention to remain with the Trust. The Trust exit process has been reviewed and will be refreshed.	1. Workforce Assurance Group to TMC and Trust Board 2. Executive HR Report	Monthly Report	Amber	
C4	Strengthen Trust approach to employee engagement building on national and local survey data - understand variances in workforce groups.	1. Workforce Assurance Group Report to TMC and Trust Board 2. Executive HR	Monthly Report	Amber	
C5	Develop a strategic approach to People Management for the remaining period of the five year plan with clear metrics to measure outcomes. People and Organisation Development Strategy 2016-2020 goes to Trust Board in September 2016. The People and Organisation Development Strategy 2016-2020 was approved at Trust Board in September 2016.	1. People and Organisation Development Strategy 2016 - 2020. Measures and supporting metrics completed. Supporting Action Plans in Progress.	Completed	Amber	

The GAPS IN CONTROL / NEGATIVE ASSURANCES are ...	Mar 2017 Status:
	Update received

What are the remaining key gaps (up to 10) in the controls or negative assurances despite the stated controls and positive assurances in place?

REF	GAP (include reasoning for the gap described)	ACTION PLAN / COMMENTS	ACTION LEAD	AGREED DEADLINE
C1	There are concerns about the number of Filipino nurses that are actually able to complete the process of gaining IELTS, CBT and NMC registration and gaining a visa to travel to the UK and the length of time this process takes. The Trust had 24 Philippine nurses by the end of 2016. A further 11 CoS have been approved as at 4th February 2017. There are concerns nationally about the ability to retain nursing and medical staff within the profession, particularly for doctors in training. The focus is on retaining and developing existing staff within the workforce and growing own talent internally. Further work on the retention strategy has taken place. The impact of the EU referendum on recruitment and retention of key staff groups has not been quantified yet, nationally or locally. The impact of changes to the Tier 2 Visa process have not yet been quantified and a decision has yet to be made on the financial sustainability of international recruitment.	There are regular monitoring meetings with the Recruitment Agency who have also been asked to provide potential start dates for each candidate to the Trust. The Agency now provide provisional/aspirational start dates for candidates as part of their weekly reporting and this is also discussed at fortnightly meetings the International Director at the Agency. Review meetings with Managing Director and Trust Executives are scheduled quarterly and took place in June and September 2016. A further meeting is set for February 2017. Discussions with NMC to highlight concerns about IELTS with provision of evidence of how a change in the rules in relation to the way pass rates are calculated would positively impact on the number of non-EU nurses passing and being able to gain entry to the UK and thereby work at the Trust. Meeting took place on the 11th March 2016 and discussions were positive. The NMC representatives have been sent more information from the Trust. There has now been an amendment to the rules relating to IELTS - this will apply retrospectively and will increase the candidates available to proceed with their application to the NMC. A Nurse Recruitment and Retention Strategy with action plan has been approved and will now be made available on the Trust intranet from February 2017.	CG/SA LH/CE CG	Jan-17
C2	Longer term plans to establish a central temporary staffing function that handles internal bank and external agency placement requests for all departments requires investment in systems to support. Exploratory meetings with providers have been scheduled - to complete by March 2017. Further work is required to balance safe staffing provision and compliance with agency cap.		SA	March 2017 March 2017
C3	The strategy for recruitment and retention is in development and the metrics for measuring outcomes are being developed to support the effective delivery of the action plan.	Metrics defined for measuring the effectiveness of the Strategy were approved at Trust Board during September. Plan to be monitored at Nurse R&R Steering Group. The group has approved the Strategy - Policy Group ratified the strategy in January 2016. Strategic Recruitment and Retention Plan for Medical staffing to be developed by the Medical Workforce Steering Group. The annual workforce planning process took a targeted approach to identifying key workforce recruitment and retention issues across the Trust used scenario planning to identify future workforce requirements over two year planning period. The plan met validation via NHSI portal including the narrative.	CG	26/09/2016 Completed
C4	Emergency Department remains a particular concern. Strengthen controls over agency and locum use and develop a planned approach to temporary staffing: - review compliance and spend levels against cap levels - Review the operation and effectiveness of internal bank - Review effectiveness of controls systems (ie business process, IT,	The Trust Efficiency Programme has a workstream on Workforce which is planning efficiencies around resourcing including locum, agency and bank spend. The PID was approved in October 2016 and the project plan for delivery is progressing. This is monitored on a monthly basis at Workforce CIP with target for 2017-2018 year of £2 million reduction.	CG/SA LH/CG	01/10/2016 Approved Delivery for 206-2017 year on target - Stretch target set for 2017-20-18 year
C5	The People and Organisation Development Strategy 2016-2020 needs strengthening with outcomes, measures and metrics. The outcomes on Engagement and Culture and Organisation Development require further definition and action planning in order to ensure action to improve employee engagement, involvement and satisfaction are reflected in improved retention figures, increased tenure and improved patient experience within the Trust.	Several meetings have taken place to define the detailed actions, the work was completed by 31st August 2016. The strategy was received and approved at TMC and Trust Board during September, and following some final updates will be launched during February 2017. Policy Group received the People and OD Strategy in January 2017 and will formally ratify the Strategy in February 2017.	CG	Completed Sept-16

Key Assurances received					
Report ref	Controls	Positive assurance	Date last assurance provided:	RAG	Comments
		What is the report that provided assurance?			
C1	Monitoring of CIP target at monthly Transformational Programme Efficiency Group (TPEG). This is now bi-weekly financial recovery group (FRG)	workshops (Oct) will be worked up (PID) and reviewed. Workforce group has PID for sickness/rostering and agency spend. Additional CIP still being detailed.	Feb-17	AMBER	However, the CIP target is phased into the latter part of the year
C2	Use of transformational schemes via benchmarking to assist in CIP efficiencies	CIP schemes continue to be identified (mainly non recurrent). PIDs agreed by Directors and PSIG.	Feb-17	AMBER	Mainly non-recurrent
C3	Monitoring of CIP achievement against target at monthly FRB	Small CIP continuing to be identified - see above	Feb-17	RED	underachievement
C4	Carter efficiency team identified savings	CIP report in April identified cardiology & rheumatology for first Carter efficiencies. Further reviews of specialties following carter methodology have been undertaken.	Feb-17	RED	Schemes moved into 16/17 and will extend into 17/18
C5	Appointment of Deloitte to assist with CIP delivery	Deloitte onsite (June 16) Focus, Theatres, outpatients & management of transformation team. Revised report present to October F&P Committee. FRP developed - actions commenced formal sign off. Regular FRG report to F&P.	Feb-17	RED	contract-extended until Mar 17. Failed to appoint into post. Further discussion to take place.
C6	Trust to implement financial recovery group - led by CEO - (FRG)	FRG is established, meeting bi-weekly. Will review major CIP schemes. Implement further measures re vacancies, procurement, management of bank/agency.	01/03/2017	GREEN	1st meeting 23/11/16 - group meets bi-weekly
C7	Financial recovery being developed.	To be presented to the Trust Board. Reported regularly	01/03/2017	RED	Significant Unidentified CIP
C8	MD & COO reviewing all medical (doctor) establishment with Directorates and HR to understand vacancies, locum plans.	Meetings identifying plans for recruitment use of clinical fellows and also where gaps in directorate planning.	01/03/2017	AMBER	Resource meetings will be completed end of March 2017
The GAPS IN CONTROL / NEGATIVE ASSURANCES are ...					Mar 2017 Status:
