

The Orthotics Service Friends and Family Test

Results from July 2016—January 2017

Thank you for providing us with feedback about your orthotics service. We would like to share the results of our friends and family test with you. If you haven't completed a friends and family test card, the survey is on-going so please complete one to ensure your feedback is included in the next batch of results. You will find the cards in the orthotics waiting area, alternatively ask a member of staff who will be happy to provide you with one.
